

Testimonial for Yellow Cat Case Work

Ron with Yellow Cat was great to work with. He started out creating templates of all of our cases and made sure the layout was exactly the way we wanted it. After our store was complete the cases lined up perfectly with all the overhead lighting, giving it the ideal effect, and making our showroom sparkle. Everything was completed on time, delivered and set up as agreed.

We have been in our new store for over five years now and the cases are holding up great. With heavy traffic they are showing no wear, and we have had zero problems with them. The finish work on the cases was above and beyond what we expected and Ron helped us to create a beautiful store that we are very proud of. We would highly recommend him!
